Washington, D.C. 20004

Re: Freedom of Information Act Request

Dear Sir or Madam:

Pursuant to the Freedom of Information Act, 5 U.S.C. §552, and the Environmental Protection Agency regulations implementing the FOIA, 40 C.F.R. Part 2.100, *et seq.*, on behalf of Ingersoll Rand I hereby request that the following documents be provided to me on a CD/DVD with document identification and a supporting declaration of authenticity.

These document requests relate to documents generated, collected or submitted as part of the public record since January 1, 1988 relating to the U.S. Environmental Protection Agency (EPA) and Louisiana Department of Environmental Quality (LDEQ) investigation and removal of asbestos-containing material conducted in the Westbank area near New Orleans, Louisiana encompassing the communities of Bridge City, Westwego, Marrerro, Harvey, Gretna and Algiers. The CERCLA project number for this effort is LAD985170711. We specifically request the following materials:

1. True and correct copies of photographs, in photographic quality reproductions, taken between 1992 and 1996 by Technical Assessment Team (TAT) members T. Naquin, Debra Bendily, and G. Day or others as referenced in documents entitled "Photograph Tracking System" prepared in the relevant time period. An example of the Photograph Tracking System is attached as Attachment A. Specifically, we request the photographs listed in Attachment B.

We believe these photographs involve facilities, locations, and/or images that are not private and thus are not subject to a FOIA privacy objection. Please provide these materials on a CD, DVD, or flash drive along with a document identification system that allows one to trace the origin of this information to the collection of materials to be provided by EPA. Please also provide a response identifying the Bates range of the documents produced in response to each individual request. If no responsive documents are being produced, please so state. Please also

March 20, 2019

provide a certification that the documents provided in response to this request are true and correct copies of public records held by EPA.

If you determine that any portion of the requested documents or records qualify for withholding under an exemption to the FOIA disclosure requirements and that such materials are not to be made available through discretionary release, I request prompt release of all reasonably segregable information. For all material withheld from release, I request that you (1) identify the withheld material; (2) indicate the FOIA exemption under which material is being exempted; and (3) explain the application of the exemption to the withheld material.

If the materials are not organized in a fashion to facilitate production of the specific items requested, please contact me to discuss the most feasible arrangement for production and review of the relevant materials.

We agree to pay reasonable FOIA fees, as prescribed in the Environmental Protection Agency regulations implementing FOIA, 40 C.F.R. Part 2.107, up to a maximum of \$1,000. If you estimate that the fees will exceed this limit, please inform me.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read 'K. Tuckley', with a large, sweeping flourish extending to the right.

Kieran Tuckley
